1 PROJECT STATUS REPORT PURPOSE

The Project Status Report is a document that Project Managers may use as a means of formal regular reporting on the status of a project to key project stakeholders, including the Steering Committee, Project Sponsor, and Senior Manager.

2 PROJECT STATUS REPORT TEMPLATE

2.1 Project Status Report Details

As we interview our client, we suggest a new user in our system which involve the Student Affair Head and Adviser. Because we want to make sure that all the process of the documents will be monitored by the administrator and the organization.

Project Recommendations

We must need to take consideration of having a consultation with the framework developer to be more familiarized and knowledgeable on the overall functionalities and operations of the framework. Moreover, putting urgent attention on the resolution of the technical issues is also important in this project because we only have limited time to finish the project and this problems can affect the overall operation of the system
--

Objectives for Next Project Status Review

Some problems on system modules must be addressed on the next reporting phase and the project team should be knowledgeable on the framework's coding structure
